Twinkly Strings Special Edition – 400 RGB+W LED Lights String, 32 m, 16 Million Colors + Warm White – Generation II

Twinkly Strings Special Edition – App-controlled LED Lights String with 400 RGB+W (16 million colors + pure Warm White) LEDs. 32 meters. Black wire. Indoor and outdoor smart lighting decoration.

Twinkly Strings Special Edition is a smart LED lights string that can be controlled via app and vocal assistants. With a lighted length of 32 meters, consisting of 400 RGB + Warm white 5 mm clear and diffused flat lens LED, specifically designed with a flat head to reach impressive brightness levels and perfect tone of color, Twinkly Strings goes beyond the traditional decorative Christmas lighting with a Bluetooth® and Wi-Fi controller and a state-of-the-art smartphone application, bringing new levels of lighting design and creativity in and out of your connected home all-year-round. Like all Twinkly products, Strings can be mapped and every single LED can be controlled individually, allowing you to create and reproduce unique effects, gradients, and color animations – Strings becomes your screen. Easily configurable via Wi-Fi and Bluetooth®, Twinkly Strings is controlled using the free Twinkly App, available for iOS and Android. Twinkly's App enables you to create bespoke light design installations thanks to a wide range of pre-made effects and animations, as well as the ability to create your own effects from scratch using the FX Wizard creation tool. Twinkly Strings Special Edition can be grouped together with other Twinkly RGB+W devices to create larger, synchronized light installations. Twinkly Strings can be controlled seamlessly with vocal assistants such as Hey Google and Amazon Alexa, as well as with Apple HomeKit, Homey, and Razer Chroma™ RGB via Twinkly Chroma Connector to enhance your gaming experience with stunning light effects that react to your gameplay. Suitable for indoor and outdoor use, rated IP44.

OTHER FEATURES. Smart controller, power adapter with plug type G (United Kingdom) included. Fully-featured control panel with dimmer, timer and brightness. Works with Hey Google and Amazon Alexa. Works with Apple HomeKit. Compatible with Homey. Integrates with Razer Chroma™ RGB.

Long description

Twinkly Strings Special Edition is a smart LED lights string that can be controlled via app and vocal assistants. With a lighted length of 32 meters, consisting of 400 RGB + Warm white 5 mm clear and diffused flat lens LED, specifically designed with a flat head to reach impressive brightness levels and perfect tone of color, Twinkly Strings goes beyond the traditional decorative Christmas lighting with a Bluetooth® and Wi-Fi controller and a state-of-the-art smartphone application, bringing new levels of lighting design and creativity in and out of your connected home all-year-round.

Like all Twinkly products, every single LED of Strings can be controlled individually, allowing you to create and reproduce unique effects, gradients, and color animations.

Twinkly's patented mapping tool uses your smartphone camera to locate the precise position of each LED in the space, however they are laid out. This powerful and innovative process lets you control your Strings like a screen: you can play professional, pixel-perfect effects and animations right on your decoration.

Twinkly's App enables you to create bespoke light design installations thanks to a wide range of pre-made effects and animations, as well as the ability to create your own effects from scratch using the FX Wizard creation tool. All effects are completely customizable: brightness, speed, intensity, and color can all be modified with a single tap. A color picker helps you choose the perfect shade from more than 16 million options, plus the full spectrum between cold white and warm white. An ON/OFF timer and general dimmer complete your control panel, providing you with unlimited possibilities to create the perfect lighting decoration. Strings Special Edition can be grouped together with other Twinkly RGB+W devices to create larger, synchronized light installations.

Twinkly Strings can be used in combination with Twinkly Music, a small USB device (sold separately) capable of identifying and interpreting any source of music reproduced in your environment, enabling your lights to follow the beat for a WOW-effect audiovisual experience.

Twinkly Strings can be controlled seamlessly with vocal assistants such as Hey Google and Amazon Alexa, as well as with Apple HomeKit, Homey, and Razer Chroma™ RGB via Twinkly Chroma Connector to enhance your gaming experience with stunning light effects that react to your gameplay.

Getting started with your Strings is super easy: a quick and intuitive setup process helps you configure your device in a matter of seconds via Bluetooth® and Wi-Fi.

Twinkly Strings is IP44 certified, suitable for both indoor and outdoor use.

General

Product SKU	TWS400SPP-BUK
EAN	8056326673413
Year's model	2019
Light string	
LED type	Addressable LED
LED color	16M+ colors + Warm white
Number of lamps	400
Lamp type	Clear + Diffused flat lens
Lamp diameter	5 mm 0.2 in
Wire color	Black
Lighted length	32 m 105 ft
Distance between lamps	8 cm 3.1 in
Replaceable lamps	No
Extendibility	No
Net weight	1.15 kg 2.54 lbs

Controller

Controller	Generation II
Connectivity	Bluetooth® and Wi-Fi
Controller dimensions	12.5 * 3.8 * 2.3 cm 5 * 1.5 * 0.9 in
Cable color	Black
Lead cable length	2.5 m 8.2 ft
Power cable length	1 m 3.3 ft

Technical

Adapter input voltage	110-240V – 50/60HZ
Adapter output voltage	36W (24V 1.5A)
Plug supplied	Type G
Lifespan	Over 30,000 hours
IP rating	IP 44, Indoor and outdoor use

Features

App controlled	Twinkly App (iOS and Android) for mobile/tablet
